Prof. Fouskas welcomed the participants, introduced INFUSSE partners, and explained the objectives of the webinar. Then, the agenda foresaw the presentation of the INFUSSE platform by Mrs. Pachni Tsitiridou.

Mrs Pachni Tsitiridou started her presentation, by introducing the INFUSSE project, the main challenges, and its objectives. Then proceeded with the presentation of the platform of the project and the two categories of programmes that INFUSSE is offering (Train the Trainers, INFUSSE Incubation Programmes). She highlighted that the platform is interactive and open source and presented more details for each training course, such as the modules offered, the group of stakeholders that it is addressed to, and the check-you-knowledge sections for the assessment. She finished the presentation by explaining the way that the INFUSSE project will support the enhancement of digital entrepreneurship logic in Higher Education Institutes and what the project will offer to students and graduates.

Summary and Key results

PR4/A3 Local Dissemination Webinars from all HEI partners was an important dissemination activity to raise the awareness of students about the project and the opportunities it brings for them for their entrepreneurial skills enhancement.

The webinars showed solid interest in the universities, allowing to communicate directly to students the INFUSSE Project and its offering, but also allowing the students to know better the course managers and have direct questions to them.

The webinars covered all expected KPIS (each country reaching a 70 participants in total), and created a solid fundament for the participation in PR7 and PR7, raising the awareness in the university and allowing us to promote the project not only directly to future participants in the project, but to the university ecosystem in general.
